PRESS STATEMENT

For Immediate Release

September 11, 2017 (EST-USA)

In Remembrance on the 16th Anniversary of World Trade Center Attacks

The Indian Diaspora Council International (IDC) and its global affiliates join with other organizations, governments, agencies, groups, individuals and institutions worldwide in solemn observance of the 16th anniversary of the September 11, 2001 terrorist attacks on the World Trade Center in New York, the US Pentagon in Washington DC, and the Pennsylvania crash site, which in total left close to 3,000 people dead and many severely injured for life. IDC considers these brutal and despicable acts as inhuman, senseless, unforgivable, and unjustified criminal action directed to cause tremendous death and injury while creating widespread fear among innocent citizens in the USA and other countries.

The 9/11 attacks, considered the worst terror attack on US soil since the 1941 Pearl Harbor bombing, left more than 340 firefighters and 60 police dead, as well as thousands of first responders with shortened lives and others with lifelong medical needs and suffering. The White House released a statement on September 9, 2017 in which US President Donald Trump says September 11 will be “one of the most tragic days in American history.”

We recognize that such senseless attacks in various cities around the world are meant to inflict terror among innocent citizens of targeted countries. We are saddened that such inhumane and uncivilized crimes have been perpetrated against innocent people in various countries around the world. We join with all community organizations and agencies worldwide in our unequivocal condemnation of all such attacks as we share the pain and anguish of innocent citizens affected by such tragedy.

IDC commends the first responders, the general public, municipal authorities, and medical facilities for their prompt and diligent efforts in providing emergency services to the survivors and their families. IDC fully supports all measures taken by officials and community groups, which aim to bring security, calm, and confidence to the people, and encourages all efforts to prevent similar attacks in the future.

IDC expresses deep concern for the victims of the tragedy, their families, friends, and associates. We are very confident that people will endure these national tragedies while they retain their courage, sense of dignity, pride, values, and freedom.
